CODEKENZ / SERVICE SAMPLE

Test iPad app rotation in Simulator

iPad Simulator · Portrait and landscape · Pilot Invoice sample

The workflow retained its state through rotation.

Check	Expected	Observed
Rotate draft	Preserve the entered quantity and price	Quantity 2 and price USD 125 persisted in landscape.
PDF preview	Keep content and Back control accessible	Total and Back were visible. Extra space appeared below the landscape preview.
Rotate preview	Keep the document open and return safely	PDF retained USD 250. Draft values remained on return.

Client deliverable

Screenshots in both orientations and a prioritized QA report.

Package scope

Test one agreed iPad workflow in portrait and landscape on one iPad Simulator configuration, where the app supports both orientations.
