CODEKENZ / SERVICE SAMPLE

Test one iPhone workflow in Simulator

iPhone Simulator · Pilot Invoice sample

The workflow passed twice in iPhone Simulator.

Check	Expected	Observed
Draft amount	2 x USD 125 = USD 250	USD 250 before preview on both runs.
PDF preview	Same total in the generated PDF	PDF opened and showed USD 250 on both runs.
Return to draft	Retain quantity, price and total	All three values persisted after returning.

Client deliverable

Steps, expected and observed results, and app screenshots.

Package scope

Test one agreed workflow twice from the same starting state on one iPhone Simulator configuration.
